Unique  
Combination Of  
Value,  
Convenience, and  
Efficiency

*Stylish extras for homeowners... Better value for builders*

FIREPLACES  
FOR BUILDERS  
**Fmi**

## Classic Beauty— And The Latest Technologies

Fmi's Cottage direct vent gas fireplaces are the ideal match for today's energy-efficient homes. The Cottage represents the direct vent category of our new Builder Series, which offers a consistent look, sizing, and construction across the entire product line...plus beautiful new features homeowners will love!

### Homeowner Highlights:

- Distinctive looks**—Features random dancing yellow flame pattern and realistic glowing ember bed burner plus exquisite new split oak ceramic fiber logs with charred features and glowing highlights.
- Operation and maintenance are a breeze**—Operates from wall switch or remote control. Removable glass door never needs adjustment.
- Attractive accessories**—You have an array of convenient and eye-catching extras, including brass and platinum louver trim, hand-held remote controls, heat circulating blowers, and much more.

### Builder Benefits:

- Secure, straight installation**—We've added sturdy full-length nailing flanges and drywall stops.
- Venting options**—The Cottage offers both rear and top vent configurations. All models use our 5"-8" pipe for trouble-free operation, and painless installation in any location.
- More standard features**—Premium rolled louvers, pre-wired "J" box, and textured powder-coat finish are all standard.
- Uniform Design**—The B-Vent is an exact look-alike to our Cottage direct vent fireplace which allows builders to install either model maintaining a consistent look.

CD36RN is our rear vented model configured for natural gas.

CD36TP is our top vented model configured for propane.
