

DIRECT VENT RETRO FIT KIT

Recently FMI and Vantage Hearth released the clean face versions of our Renaissance and VersaFire direct vent fireplaces. In response to many requests from our customers, we have developed a retrofit kit so that you may convert your current louvered showroom displays to clean face fireplaces. This is an opportunity to update your floor models at no cost, giving your fireplace a cleaner, more modern look.

Please, use the chart below to order the appropriate kits and door assemblies...

Direct Vent Units	Part Numbers	Description
36" Models (V)TC36, (V)VC36, (V)KC36	RFK-CF36	36" Renaissance Clean Face Retrofit Kit
