FLAME MAJIC™

VENTED GAS LOGS

Today's best gas log designs require a careful balance of art and science to produce the most beautiful, most realistic hearth presentations. Fmi's new expanded selection of Flame Majic™ vented gas logs offer real woodburning realism in any fireplace setting... with beautiful new features homeowners will love!

Homeowner Highlights:

- **Dazzling Log Presentations** - All Flame Majic™ gas logs are painstakingly re-created from real cut wood. Each log set design features its own unique, intricately detailed bark pattern, split wood, and charred textures.
- **Array of Burner Designs** - Fmi hearth kits include aluminized tube burners, or new premium triple-tiered ramp burner for the most dynamic dancing flame patterns and deep glowing embers. Standing pilot control kits with piezo ignition are also available. Fmi's exclusive gas log ready design allows controls to be installed out of sight in an Fmi fireplace for maximum realism.*
- **All Inclusive System** - All Flame Majic™ hearth kits come complete with realistic ash bed material, glowing embers and lava floor cinders. Standard features also include all gas connecting hardware.*

Builder Benefits:

- **Simple Installation** - Flame Majic™ burners utilize a simple flared gas connection to a pre-plumbed fireplace.*
- **Quality Construction** - All Fmi gas logs are cast using the finest high-temp materials. Burners are hand made of heavy gauge steel for long life. Our solid steel log grates are saw-cut and hand detailed for the highest quality finish.*

Accessory Offering Summary*

- Manual and Remote Ready Pilot Control Kits
- "Gas Log Ready" Control Kits & Conversion Kits
- Hand-Held Remote Controls
- Accessory Logs
- Decorative Ash Bed/Control Cover Kit
