THE GRAND MASTERS SERIES

36", 42" and 50" Wood Burning Fireplaces
G36/42/50 Model Series

Our grand Georgian models set new standards for wood-burning quality, performance, beauty and perhaps most notably - scale. Available with either standard refractory brick panels, they're the only manufactured fireplace that offers a true, masonry appearance, with enormous opening dimensions, clean face design with no visible interior sheet metal... plus lots of other beautiful new features homeowners will love!

Homeowner Highlights:

- **Eye-dazzling beauty** — Georgians boast enormous opening dimensions and clean face masonry design with no visible smoke shelf or other steel components. They feature the industry's finest, most realistic textured refractory brick liner, and a convenient ash dump in the hearth floor.
- **Efficiency and performance** — Georgians come standard fully insulated, and vent with our 12" double wall pipe for trouble free operation and maximum heat output in any climate or conditions.
- **"Gas log ready" feature**—allows homeowners to add Fmi gas log sets with all gas connections and controls hidden out of sight. You see only the beautiful flame, premium gas logs and ember bed, even if you include a remote control option.

Builder Benefits:

- **Unparalleled value**— True hand crafted masonry firebox look and performance at a fraction of the cost and installation time.
- **Trouble-free operation**—Georgians are UL 127 lab tested and certified. Our large 12" double wall pipe provides trouble free operation. This means guaranteed performance to eliminate homeowner call backs.
- **Secure, straight installation**—We've added full-length nailing flanges / drywall stops built into all 3 sides of the face frame.

G42 comes with "stacked" brick style refractories and full insulation.

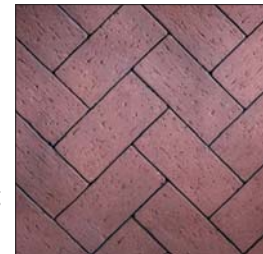

G50H features herringbone pattern, textured brick refractory.

Georgian Fireplace Product Offering Summary
