Indoor/Outdoor Wood Burning

STUNNING LOOKS, OUTSTANDING PERFORMANCE

America is moving outdoors. And Vantage Hearth's new Outdoor Wood Burning fireplaces are the perfect complement to any modern outdoor room. The stainless steel construction offers weather resistance for outdoor applications and modern style for indoor applications. Available in both 36" and 42" models, and your choice of brick liner styles.

Homeowner Highlights

- **Eye-dazzling beauty and durability** - Vantage Hearth's Outdoor Wood Burning Fireplace features clean, single piece brushed stainless steel faces, stainless mesh spark screens and even a solid stainless steel log grate. The screens tuck out of sight behind hidden side pockets to maximize the beauty of the fireplace.
- **Efficient and versatility** - The Outdoor Wood Burning Fireplace vents use our 8" double wall snap lock pipe for flexible, space saving installation. And they're approved for indoor as well as outdoor installations.
- **"Gas log ready" feature** - Allows homeowners to add gas log sets with all gas connections and controls, protected and hidden out of sight. You see only the beautiful flame, premium gas logs and ember bed.

Vantage Hearth's Indoor/Outdoor Wood Burning Fireplaces (VS42 and VS36) include natural white or warm red brick panels in traditional "stacked" or herringbone style.
