Ambient 
TECHNOLOGIES®

You've got the latest everything—laptop, cell phone, HDTV—why should your fireplace remote control be anything less?

Introducing the touch screen remote control from Ambient Technologies®.

With a large viewing area, slide control adjustments, and a high speed signal for fast response, the new TSST and TSMT will bring your fireplace operation in line with the rest of your life—on the cutting edge.

All of our remote controls are designed with radio frequency to virtually eliminate interference from other home appliances, thus ensuring fast, safe, trouble-free operation. With the latest technology, forward thinking engineering, and an ISO certified manufacturing facility, all of our remote controls offer the best design and functionality available today. Fully warranted for five years, Ambient Technologies® touch screen remotes work with all brands of millivolt and 24V gas fireplaces, log sets, inserts and stoves.

We promise to be there for you if you need us. Top-notch technical support comes standard with every remote control. Our toll-free number is staffed by knowledgeable technicians ready to get you the answers you need.
