B-Vent Fireplace Systems

The Economical Venting Choice

Vantage Hearth's Performance B-Vent Fireplace System shown with optional glass doors and brass perimeter trim

Vantage Hearth's B-Vent Gas Fireplace Systems offer the beauty of a wood burning fireplace with the convenience and economy of natural gas or propane. With no outside brick chimney required, these fireplaces install almost anywhere in a home. All that is needed is an inexpensive B-Vent chimney system.

Vantage Hearth's new B-Vent line offers a full range of choices and options. B-Vent is the ideal fireplace look for smaller, energy efficient homes. And with Vantage Hearth's wide variety you can't go wrong.

All B-Vent fireplaces feature:
- Beautiful split refractory log set*
- Hidden screen pockets
- Pre-wired electrical "J" box
- Available with millivolt or electronic ignition controls

Fireplace Beauty with Convenience of B-Vent Technology

Beautiful split refractory logs over deep glowing ember beds highlight Vantage Hearth's B-Vent fireplace offerings. These elegant fireplaces are available in three lines: Value, Performance and Premium. The Value and Performance lines are available in 32-inch models. The Premium line is offered in 36-inch and 42-inch models. All offer the flexibility of accessing the gas controls through either the lower face panel or refractory floor, to allow installation of a full face surround.

The 15,000 Btu Value line comes with a 4-inch venting system. The Performance line features 25,000 Btu with a 5-inch venting system and the Premium line delivers up to 45,000 Btu with a 6-inch venting system.

All models are available with hidden screen pockets, refractory brick floor and remote ready millivolt ignition. Additionally Vantage Hearth's Premium line of B-Vent fireplaces feature a built-in flue damper which reduces home heat loss when the fireplace is not in use. Multi-view fireplaces are available in See-Thru and Peninsula models.

Accessories To Complete The Look

Customize your Vantage Hearth B-Vent Firebox with a variety of optional blowers, louver kits, and remote controls. All models can be paired with louver trim kits, filigree, perimeter trim and glass doors. Accessories are available in brushed brass, platinum and black finishes. The bi-fold glass doors are easy to install and operate. They offer an exciting view of the fire while reducing heat loss.

The beautiful louvers and louver trim kits easily snap into place and the attractive firebox perimeter trim is a convenient way to cover unfinished edges around the firebox. Optional refractory brick liners are also available to enhance the look of the firebox. An optional triple fan or variable speed deluxe blower can be added to louvered/circulating models to increase the air flow and maximize heat distribution.

IMPORTANT

Installation must be done by qualified service persons.

Read Owner's Manual before using.

Check local codes and ordinances for permitted uses.

All products approved for manufactured (mobile) home installation.

We reserve the right to amend product specifications without notice.

Operating an appliance at very high elevations could cause nuisance outages.

Use with adequate air (ventilation) only. Humidifies while it heats. Provides water vapor in the area heated. Refer to owner's manual for specifics.

The only warranty we offer is our standard warranty. Please read the warranty for any limitations or disclaimers.
